OnePour™ frame - (1m)	296033	296034	1000	4.3

Specifications

General

The threshold drainage system shall be ACO BuildLine OnePour™ complete with gratings secured with 'DrainLok™' locking as manufactured by ACO Ltd. or approved equal.

Materials

The frame system shall be manufactured from galvanised/stainless* steel.

The frame shall provide a 100mm wide drainage opening and a 12mm open slot between the frame and the door assembly. A minimum 200mm wide drainage channel can be formed beneath the frame system.

The OnePour™ unit shall comply fully with E2 External Moisture of the New Zealand Building Code. The Grate shall be fully supported without additional supports or legs impede drainage channel and are completely interdependent of joinery/cladding.

Grates

A selection of ACO DrainLok™ grates, complying with Clause 9—AS 1428.2, Access and Mobility, ensuring safe passage of walking canes and wheelchairs, are available.

Grates shall be specified. See separate ACO Spec Info grate sheets for details. After removal of grates and there shall be uninterrupted access to the trench to aid maintenance.

Installation

The trench drain system shall be installed in accordance with the manufacturer's installation instructions and recommendations.
