Python GOS320

100 GPM Automatic Grease Removal Device

Python products outperform other systems on the market

Python is a leading innovator in grease removal technology, specializing in sustainable, environmentally-friendly automatic grease removal devices and related solutions.

Our patented, high-efficiency, cost-effective systems offer a range of unique features and benefits that set Python apart from similar products on the market.

Python[™]
Automatic Grease Removal Device

Efficiency and Effectiveness

In the foodservice industry, significant amounts of fats, oils, and greases (FOG) mix with water and are flushed down the drain. This FOG-polluted water is costly and detrimental, as it clogs drains, burdens sewage systems, and pollutes the environment.

So why not stop FOG at its source?

Along with FOG, Python systems consistently achieve a 96.4% grease removal efficiency, outperforming competing systems in the market.

Convenient Compact Build

The Python GOS320 features a unique system design that allows for multiple discharge configurations while maintaining a small footprint, making it easy to install and retrofit.

Durability and Low Maintenance

Customers across various industries leverage Python solutions to ensure they have effective and reliable systems in place. Thanks to the durability and longevity of our products, customers also benefit from a positive return on investment.

- Heavy-duty 14 gauge, grade 304 stainless steel exterior construction
- No moving parts = less maintenance
- 5 year limited warranty

GOS320 Details

Part No.	139532
Flow Rate	378.54 LPM
Height	888 mm
Length ¹	1274 mm
Width ²	602 mm
Height to Inlet Center ³	738 mm
Height to Outlet Center ³	554 mm
Weight	117.934 kg

1. Length does not include Silt Valve.
2. Width does not include 88.9mm for cassette and oil shroud.
3. Inlet/Outlet height is measured to the center.

Typical Applications

Python GOS320 meets (and exceeds) industry codes and standards including UL, IPC, UPC, IRC, NPC, ASME A112.14.3, ASME A1123.14.4, and PDI G101.
